## 1 A Practical Example

1. Prove that  $\frac{\sin A}{1+\cos A} + \frac{\cos A}{\sin A} = \csc A$ :

**Solution**

Starting from left: (1)

$$\frac{\sin A}{1+\cos A} + \frac{\cos A}{\sin A} = \frac{\sin A \cdot \sin A + \cos A(1+\cos A)}{(1+\cos A)\sin A} \quad (2)$$

$$\frac{\sin^2 A + \cos A + \cos^2 A}{(1+\cos A)\sin A} \quad (3)$$

Then cancelling both  $1+\cos A$ : (4)

$$\frac{1+\cos A}{(1+\cos A)\sin A} \quad (5)$$

$$\frac{1}{\sin A} = \csc A \quad (6)$$
